VIII Mon. October hath xxxi days.

On T. T. *who deſtroy'd his Landlord's fine Wood.*

Indulgent Nature to each kind beſtows,
A ſecret Inſtinct to diſcern its Foes:
The Gooſe, a ſilly Bird, avoids the Fox;
Lambs fly from Wolves; & Sailors ſteer from rocks;
A Rogue the Gallows, as his Fate, foreſees,
And bears the like Antipathy to Trees.
